KLOVE has a great impact on our community here in Tallahassee, Fl. It truly is a public service to so many residents in our community. It is a great station and is nice to have such a positive uplifting station. It touches not only our permenant residents but because we are such a large college town, about 100,000 college students, many visitors as well. Not having KLOVE on the air in Tallahassee would be detrimental as it serves such a great public service. Please keep KLOVE on the Air in Tallahassee.
